

Modest EHR investment Yields over \$100,000 in Medicaid Incentives for 5-Provider Dental Practice

Office Manger handles Meaningful Use program so doctors “don’t have to lift a finger” to collect incentive dollars

Challenge: Get Medicaid incentives for Meaningful Use

Dental practices that see Medicaid patients qualify for the Federal EHR incentive program

▶ *“Our practice is located in a medically underserved area, and more than 80 percent of our patients use Medicaid. The state Medicaid office notified us of the Meaningful Use program, and I convinced the doctors we could do it.”*

Needed support to help complete reporting

▶ *“We had no idea what Meaningful Use even meant, so we wanted an EHR partner that would be willing to hold our hands and walk us through the whole process.”*

Solution: Modest investment in affordable Amazing Charts EHR

Wizard makes Meaningful Use reporting easy

▶ *“The built-in Wizard is very easy to use, and color coded to alert us when we need to do something. We simply run the reports and attest on the CMS website.”*

Excellent customer support

▶ *“We couldn’t do this Meaningful Use program without Amazing Charts and the amazing support team. They are always very responsive when we call and will stay on the phone with me to explain step-by-step how to do something.”*

Results:

- ✓ Earned \$100,000+ under Stage One Meaningful Use incentive program in 2013
- ✓ Earning \$40,000+ under Stage One Meaningful Use incentive program in 2014
