

Clinician Uses Amazing Charts EHR To Start House Call Practice

Dr. Kinney rediscovers the original model for delivering patient-centered care

Challenge: Transitioning to a house call practice

Tired of working in a traditional physician practice	▶ <i>"I was missing crucial information on how patients live day-to-day."</i>
Had to see patients every 15 minutes to make ends meet	▶ <i>"As I got older I felt I needed to spend more time with my patients."</i>
Wanted to start a house call practice	▶ <i>"The number one reason was I'd have my own business and schedule patients as I want to."</i>

Solution: Amazing Charts EHR

Affordable	▶ <i>"Thanks to the affordability of Amazing Charts, my startup costs were very low."</i>
Usable interface	▶ <i>"Amazing Charts is logical and puts the charts right in front of me."</i>
Remote access	▶ <i>"With Amazing Charts, I can do this all mobile and it works for me."</i>
Holistic care	▶ <i>"Seeing a patient at home with Amazing Charts, I get to know family members and better understand the person, where in an office setting you don't get to see that whole picture."</i>

Results

- ✓ Dr. Kinney provides same-day service and is available 24 hours a day, seven days a week
- ✓ Uses an iPad with a keyboard while treating patients
- ✓ Keeps patients out of the emergency room, reducing high-cost hospital care
