

Doctor Transitions From Partnership to Solo Practice Using Amazing Charts

“Without Amazing Charts EHR, my transition would have been financially and clinically difficult.”

Challenge: Starting a solo practice after partner retired

Complex documentation	▶	<i>“We were using multiple PM systems to collect and track clinical data.”</i>
Inefficient workflow	▶	<i>“In the past, I have used EHRs that involved too many clicks for one simple task.”</i>
Staff training	▶	<i>“I had to hire new staff, so the less training needed to use an EHR, the better.”</i>

Solution: Amazing Charts EHR

Ease of use	▶	<i>“There was no need to spend lots of time learning how to use Amazing Charts.”</i>
Seamless integration	▶	<i>“The interconnectedness with our local labs, radiology, and pharmacies really helped me run one clinical system and track data better.”</i>
Users supporting users	▶	<i>“At an Amazing Charts Users Conference, a colleague shared a valuable shortcut in the system that saved me a significant amount of time.”</i>

Results

- ✓ Dr. Way owns a successful osteopathic family practice in Narragansett, RI
- ✓ Runs independent practice instead of working salaried hospital job
- ✓ Focuses on quality of care rather than quantity of patients seen in a day
