

CLINICIAN USES AMAZING CHARTS EHR TO START HOUSE CALL PRACTICE

Dr. Kinney rediscovers the original model for delivering patient-centered care

Stephen Kinney, MD

CHALLENGE: TRANSITIONING TO A HOUSE CALL PRACTICE

- | | | |
|--|---|--|
| Tired of working in a traditional physician practice | → | "I was missing crucial information on how patients live day-to-day." |
| Had to see patients every 15 minutes to make ends meet | → | As I got older I felt I needed to spend more time with my patients." |
| Wanted to start a house call practice | → | "The number one reason was I'd have my own business and schedule patients as I want to." |

SOLUTION: AMAZING CHARTS EHR

- | | | |
|------------------|---|--|
| Affordable | → | "Thanks to the affordability of Amazing Charts, my startup costs were very low." |
| Usable interface | → | "Amazing Charts is logical and puts the charts right in front of me." |
| Remote access | → | "With Amazing Charts, I can do this all mobile and it works for me." |
| Holistic care | → | "Seeing a patient at home with Amazing Charts, I get to know family members and better understand the person, where in an office setting you don't get to see that whole picture." |

RESULTS

- ✓ Dr. Kinney provides same-day service and is available 24 hours a day, seven days a week
- ✓ Uses an iPad with a keyboard while treating patients
- ✓ Keeps patients out of the emergency room, reducing high-cost hospital care
