Happiness

**2014 Medscape/WebMD
EHR Physician Report:**
#1 for Ease of Use

*“Unlike other EHRs, Amazing
Charts actually lets me have more
face-to-face time with patients”*

– Dr. James Legan, Internal
Medicine

The Amazing Charts Electronic Health Record (EHR) system allows you to completely document any medical encounter in a fast, efficient, and straightforward manner. The latest version is 2014 Certified for Meaningful Use, so you can immediately start collecting federal incentives for using a certified EHR. Amazing Charts has been adopted by over 6,700 unique medical practices across the U.S. Our customers include family physicians, internists, pediatricians, psychiatrists, podiatrists, and essentially every other specialist.

Features & Functionality

Charting: the highest rated EHR for usability, allowing rapid documentation of patient visits and calls. Includes hundreds of pre-built, specialty-specific templates and the ability to easily add your own.

e-Prescribing: integrated prescription writer includes easy drug/drug, drug/allergy interaction checking, formulary information, and an electronic link to U.S. pharmacies through the Surescripts network.

Scheduling: simple drag-and-drop scheduling; one click documentation of “no-show” and “confirmed” appointments.

Meaningful Use Certified: includes the Meaningful Use Wizard™, a step-by-step tool to generate the reports needed to collect HITECH stimulus money.

Decision Support: includes USPSTF, CDC, and other guidelines to remind you of preventative care recommendations at the point of care.

Billing: Amazing Charts includes the ability to code and print invoices and CMS1500s.

Hands-Free Dictation: voice-enabled to work seamlessly with Dragon Naturally Speaking, Medical version.

Pricing

*Please note that in order to take advantage of most of our products or services, an active subscription to our annual Support & Maintenance package is required.

- Pricing is based on the number of clinicians who make patient-care decisions (i.e., physicians, physician assistants, and nurse practitioners).
- Our hosted service dramatically reduces implementation headaches and ongoing IT support costs. This robust, secure service not only makes it easier to run a single Amazing Charts database across multiple offices, but now you can also use Amazing Charts on Apple iPads. Active Internet connection required.
- Amazing Charts is so intuitive that most people learn to use it in a few days. Our support staff is ready to provide startup training and implementation assistance via phone, chat, or email.
- We offer a variety of additional training options, including webinars, classroom training in major cities, and training in your office.
- Maintenance includes all of our software updates and enhancements, upgrades, e-Prescribing, interaction checking, technical support, and essentially everything else.
- Our Practice Management (PM) solution is integrated into Amazing Charts EHR for improved efficiency in your clinical and financial workflow. This user-friendly billing and (RCM) module allows your practice to manage the entire patient visit – from eligibility and scheduling to clinical documentation, billing, and reporting.
- Daily electronic and paper claims submission and tracking; Direct Messaging with your billing manager; Payer remittance and patient payment posting; Advanced claim scrubbing; Extensive follow-up and appeals process; Patient statements and telephone follow-up - customized for your practice's needs; No-hassle, cloud-based reporting software; Fully customizable reports; and Periodic account reviews
- Reminders are fully-embedded within the Amazing Charts EHR appointment schedule window, increasing efficiency by reducing clicks and keystrokes.
- Our off-site backup service allows you to upload your crucial EHR data each night to our secure data center for safekeeping. This differential backup technology only copies data that has changed since the previous full backup, making the service efficient at backing up large file attachments such as radiology images.
- Our Meaningful Use (MU) Success Services help you and your staff navigate the complexities of MU, making it easier complete a successful attestation and collect Federal incentive dollars.
- Interfaces help you make the most of your EHR investment. Many of our customers receive lab and radiology interfaces for free when the companies pay us the fee on behalf of the practice.

We offer a range of solutions for any practice regardless of size, specialty or budget. Our product line-up includes all the tools you will need to run your practice efficiently and effectively. We offer a low cost - easy to use basic option as well as multifaceted systems to manage all the components of your office structure.
