

Amazing Charts EHR Breathes New Life Into Solo Practice

Dr. Silverstein would have retired if not for Amazing Charts

Challenge: Transitioning from paper charts to an EHR

Insurance chart reviews	▶	<i>"My practice manager was spending lots of time dealing with insurance company chart reviews due to illegible handwriting, abbreviations and signatures."</i>
Hours of transcription	▶	<i>"Every day my practice manager spent several hours typing my dictations into paper charts."</i>
Pressure to go paperless	▶	<i>"I was thinking about retirement, and I knew the age of the EHR was coming. I could feel the pressure all around."</i>

Solution: Amazing Charts EHR

Easy to implement	▶	<i>"When you get to my age you don't want to tolerate nonsense. That's not what Amazing Charts is about!"</i>
Software integration	▶	<i>"The integration of Dragon Dictation with Amazing Charts frees up several hours of my practice manager's day!"</i>
Easy to use	▶	<i>"My practice manager likes to joke that you can teach an old dog new tricks, and learning this EHR proves it."</i>
No more chart reviews	▶	<i>"Chart reviews used to be very stressful, and now we don't even worry about them."</i>
