

- Key Benefits -

- Monitor and measure Meaningful Use participation
- Process prescriptions and refills at any time, including controlled substances
- Access the patient information that is relevant and pertinent via charting flexibility and 'quick access' tools
- Track, escalate and monitor results and orders through interface connectivity with labs, radiology and pathology systems
- Document the way your physicians prefer: macro text, voice recognition, point and click, and templates
- Improve communication and diagnosis understanding with your patients
- Streamline the office by coupling with the CareTracker Practice Management module.

CareTracker EMR is built using cloud-computing technology, so you get instant updates, reliable connectivity, and access to complete global content – all for a lower total cost of ownership. From any Internet-connected computer, physicians can access a secure web interface that is connected to a network of labs, pharmacies, specialists and hospitals.

Time: Immediate start-up via quick and easy implementation with online training

Simplicity: Cloud-only solution that connects via web browsers on any computer, available anywhere, anytime

Value: Multiple feature-rich upgrades and always current content included with low subscription pricing and minimal commitment

Make it YOUR EMR

- Efficiency is key. CareTracker EMR offers 'One click' access with flexibility and customization
- Send Every Prescription Electronically. We remain committed to providing a safe, compliant, and efficient electronic prescription solution. CareTracker EMR now has a capability to send controlled substances to pharmacies electronically.
- Communicate with your Patients and Other Providers. Standardizing how providers share patient data with one another is essential to improve care coordination.
- Successfully Participate in Meaningful Use. ONC-ATCB certified to the 2015 standards as a complete EMR, CareTracker EMR will help you monitor progress in the meaningful use program via an intuitive, continuously updated dashboard with visual graphs, real time reporting capabilities, and education materials with 'how to' tutorials. Find Diagnosis Codes Fast Search by ICD-10 code, medical shorthand, and even words that have spelling mistakes because CareTracker EMR is fully integrated with the Intelligent Medical Objects (IMO) Problem (IT) diagnosis search engine. With our integrated portal, patients communicate their medical history prior to office visits, leaving you more time to spend on exams, treatment plans and counseling.

We offer a range of solutions for any practice regardless of size, specialty or budget. Our product line-up includes all the tools you will need to run your practice efficiently and effectively. We offer a low cost - easy to use basic option as well as multifaceted systems to manage all the components of your office structure.
