Save Time and Increase Revenue by Using Dragon Voice Recognition with Amazing Charts EMR

Dragon

Voice Recognition Software

Did you know that combining Dragon Medical IV or Dragon Medical ONE voice recognition software with Amazing Charts EMR allows you to dictate your notes directly into your medical records? With the right configuration, you can complete detailed charts in less than five minutes and follow up visits in less than three.

Want to improve clinical documentation?

Just say the word.

Are you looking for a system that works with your specialty?

Dragon Medical II's Tier 3 Support Package will give you up to 8 hours of training support to create custom voice recognition templates to make the transition simpler.

Have you avoided voice recognition because you think it may not understand you?

Both Dragon Medical IIV and Dragon Medical ONE are programmable to recognize your speaking style based on a few simple questions about yourself. No matter the accent, Dragon will not only understand you, it is designed to remember how you speak.

Change the way you dictate notes and start charting faster today.

Regardless of your specialty or your speaking style, Dragon Medical can get you charting faster than ever. You will be more productive and have more time to spend with patients or your family.
