

NURSE PRACTITIONER RUNS SOLO PRACTICE WITH AMAZING CHARTS EHR

FNP Mary Oot was able to start her own medical clinic thanks to Amazing Charts

Mary Oot, FNP

CHALLENGE: CHOOSING THE RIGHT EHR TO START A SOLO PRACTICE

- Needed a low start-up cost → "I knew getting my practice started was going to be expensive, so I needed to find an EHR that was affordable."
- Ineligible for MU incentives → "I needed an EHR system with low operating and maintenance costs because NPs like me are ineligible to receive Meaningful Use incentives."
- Required user-friendly software → "I was starting this practice alone, so I needed an EHR that was user-friendly."

SOLUTION: AMAZING CHARTS EHR

- Great references → "I spent months researching many EHRs, but read several positive reviews on Amazing Charts and decided to try it."
- Responsive support → "Customer support was a tremendous help in getting us started and is very responsive. I would not be as efficient without them."
- Seamless Integration → "Amazing Charts and Updox Document Management work extremely well together. I would strongly recommend Updox as a companion program."
- Clinician-friendly → "Amazing Charts is a very user-friendly program. I can write notes and document visits much quicker than I could with paper."

RESULTS

- ✓ FNP Mary Oot loves how easy Amazing Charts is to use
- ✓ Enjoys running her own practice where patients remain the priority
- ✓ The practice is operating at maximum efficiency with Amazing Charts
