

expanded  
codes for  
CCM

CMS has expanded upon its already-significant code set pertaining to chronic care beginning January 2022. The nationwide success of CCM, PCM, BHI, and RPM codes has set a precedent for this year's PFS rule. The new code set shows increased reimbursement for some of 2021's former codes, while adding brand new codes and reimbursement methods to the list.

of the evolution of Cosán's relationship with our providers and practices. 2022's new PFS rule has confirmed our belief that the Medicare reimbursement codes are

Cosán Group has always found extreme importance in recognizing the influence of technology in chronic health management today. Taking advantage of certain Medicare coverages is crucial to providing patients with maximized quality of care. Medicare's expansive chronic care code set has been a key part

extremely useful and necessary for the circulation of chronic care treatment.

The new rule has shown significant increases in reimbursement for CCM and PCM\* services. A clear validation that CMS is committed to supporting the success of these programs.

*\*For information regarding PCM, please contact your Cosán representative.*

**important note:** The names of some codes have changed - this may affect the way you bill for service reimbursements. Positive margins in the new CCM and PCM codes are worth noting.

Here is a list  
of the new codes  
& the changes  
in existing codes.\*\*

Cosán will continue to provide our partners with new updates or changes to codes, policies, and billing requirements which may directly affect the way we operate our businesses. We hope this information allows you to fully benefit from these increases in 2022.

### Expanded Code Set for Care Management Services

Chronic Care Management (CCM)	
CPT 99490	Initial 20 minutes, clinical staff
