

# Small Practice EHR

## A Comprehensive Guide

*A holistic health management tool, specially designed for small practices*

Amazing Chart offers, unparalleled ease of use and robust features Here, we will delve deep into the uniqueness and superiority of our solution.

We do so by teaming up **efficiency** and our **intuitive interface**.

### Our Features

#### Single Screen Functionality

With most tasks achievable from one screen, forget the hassles of navigating through convoluted pathways.

#### Quick Access & Integration

Whether you're adding a new patient or connecting with Health Information Exchanges, everything is easy, & integrated.

#### Patient Lookup & Tracking

Instantly access patient data and monitor their status efficiently with customizable color coding.

#### Comprehensive Reporting

Dive deep into patient data, from flu shots to more intricate health analysis, with our unparalleled reporting features.

#### Scheduled Messaging

Internal messaging center, combined with drag & drop scheduling interface, makes internal communication a breeze.

Did you know, that you can **customize amazing charts according to your needs**. From color codes to scheduling views, do what fit's for your practice.

### Unleash innovation with cutting-edge, **advanced features**

- ✔ **Managing chronic care**, like diabetes, is simplified with our specialized tools.
- ✔ Navigating regulatory requirements is effortless with **MIPS integration**, and our software is designed to play well with third-party tools.
- ✔ A **secure communication line** between you and your patients, along with **timely reminders**, ensures you're always connected.

### User Experience at its best

*It's not just a product but a must have experience!*

Superbill Integration ● Medication Management ● Efficient Billing Solutions  
Pharmacy & Labs Interface ● Letter Writer Tool

*Not sure yet? No worries! Try out our one-month trial and experience the difference firsthand.*
